

Title: Everything Comes Alive

In the morning when my heart is cold - You're the heat for my weary soul

You're the good in all I know

In the mirror all that I see - Is Your grace looking back at me

I'm not the man that I used to be

You're the song, You're the song - Rising from my heart - Everything Comes alive

Everything comes alive - Everything comes alive - Everything comes alive - In YOU

In the evening when my bones are tired - You're my strength and my heart's desire

You're the light when the sun expires - I remember how far I've come

I'm not lost with You I'm home - I didn't find You on my own

You're the song, You're the song - Rising from my heart

Everything comes alive - Everything comes alive

Everything comes alive - Everything comes alive - In YOU

I'm made alive - now I'm by Your side

I've come alive - I've come alive

I'm made alive - now I'm by Your side

I've come alive - I've come alive

And when my days are done

I've got a Hope that I'm sure of

I'll be with You in heavenly places - I'll be with You in heavenly places

I'll be with You in heavenly places - Heavenly place...s

My heart is beating to the rhythm of Your love

My feet are running ever faster to Your grace

My heart is beating to the rhythm of Your love

My feet are running ever faster to Your grace

I'll be with You in heavenly places - I'll be with You in heavenly places

I'll be with You in heavenly places - Heavenly place...s
